

*"The production unit in Poland has been active since 1999 within the Kamic Group. Since 2019 it's operating under the name EG Electronics Sp. z o.o. In early 2020 it changed to a brand new facility located just outside Warsaw and close to the Warsaw Chopin Airport.*

*Our new 850 m2 of production area is equipped with state of the art equipment and in combination with the possibility of high storage it ensures a very high standard of modern technology ergonomics and flow of material. In addition, we have 250 m2 of modern representative office space."*

**Kamil Kapanajko**  
Plant Manager
